RELINE UV TECHNOLOGY in partnership with RELINE UV DISTRIBUTION

RE2000 MOBILE
RE2000 PROFESSIONAL

Max. power output of 6 x 2000 W

THE MOST COMMONLY USED SYSTEM: RELIABLE AND STATE-OF-THE-ART

The UV curing system RE2000 can be reliably used to rehabilitate gravity and pressure pipes by curing UV-Liners from DN 150 (6") up to DN 1200 (48"). It is available in different designs with a variety of light sources and various cable lengths from 150 m (492 ft) up to 300 m (984 ft).

PRODUCT OF | RELINE EUROPE GMBH © 09/26

RE2000 MOBILE
RE2000 PROFESSIONAL

QUALITY

The entire curing process is precisely documented – including temperatures, pressure changes, UV bulb status, curing speed and -length as well as job site data. Optional photo or video records add transparency. The system continuously visualizes all process data and CCTV. Worldwide remote diagnostics and service as well as full compliance with current safety standards.

HIGHLIGHTS

- Automatic compensation of power loss for each single bulb caused by cable temperature and bulb ageing
- Operation with intuitive touchscreen or keypad control
- Unique curing and control software
- It can be used mobile or stationery
- Optional: Integration of TV inspection camera and a leak detector device (professional)

TECHNICAL DATA

	MOBILE	PROFESSIONAL
Height x Length x Width (mm)	1390 x 2050 x 800	2320 x 2520 x 800
Weight (kg)	700	1050
Light sources		
Speed Chain	9 x 300 – 600 W	
Application range	DN 150 – DN 600 (6” – 23“)	
Rapid Chain	6 x 1000 – 2000 W	
Application range	DN 600 – DN 1200 (23” – 48“)	
Cable length*		
150 m (492 ft)	Max. power output 6 x 2000 W	
200 m (656 ft)	Max. power output 6 x 1500 W	
250 m (820 ft)	Max. power output 6 x 1000 W	
300 m (984 ft)		Max. power output 6 x 2000 W

**Real length can deviate by up to 10 %*

INNOVATIVE SOLUTIONS FOR SUSTAINABLE WATER NETWORKS

As a global leader in trenchless sewer and pressure pipeline rehabilitation, RELINE not only provides cutting-edge technology for the most challenging requirements, we also offer valuable planning assistance as well as the environmentally friendly execution of your rehabilitation works: A perfect combination that effectively supports the management of resources, time and budget restraints, while simultaneously delivering high-quality solutions which impress through their quality, flexibility and sustainability.
