RELINE UV TECHNOLOGY in partnership with RELINE UV DISTRIBUTION

RE COMPACT
RE COMPACT PLUS

The modular UV curing system for maximum economic success

THE START OF UV-RELINING, MORE VARIABLE THAN EVER BEFORE

The RE Compact and RE Compact Plus UV curing systems offer an impressive combination of flexibility and performance. These systems are not just simple entry-level models, but instead form the basis of a new generation of UV curing systems that open up almost unlimited possibilities. All UV light sources, packers and accessories of future curing systems can be freely combined.

RE COMPACT
RE COMPACT PLUS

QUALITY

The entire curing process is precisely documented – including temperatures, pressure changes, UV bulb status, curing speed and curing length as well as job site data. Optional photo or video records add transparency. RE-UV units ensure a constant power output of 100 %, due to intelligent ballasts compensating power loss in real time. The system continuously visualizes all process data and CCTV. Operation with intuitive touchscreen or keypad control. Worldwide remote diagnostics and service as well as full compliance with current safety standards. The RE Compact and RE Compact Plus can be used mobile or stationary.

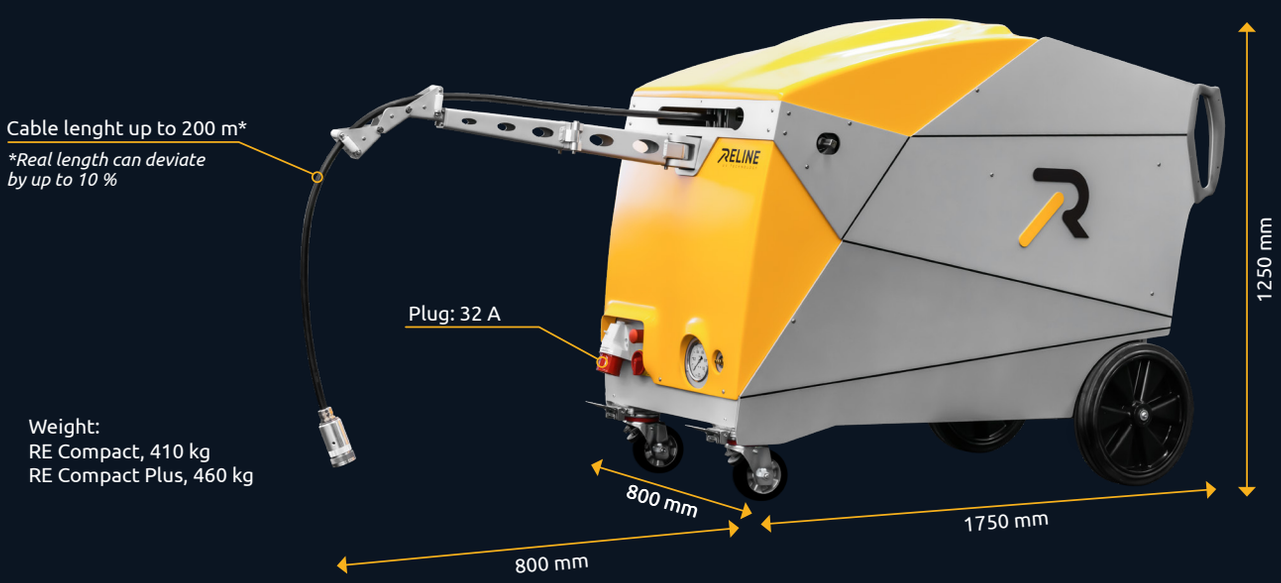

HIGHLIGHTS

- Automatic compensation of power loss for each single bulb due to cable length, cable temperature and bulb ageing
- QR code scanner for data transfer: job site data, liner ID, curing speed , working pressure
- Semi-automatic sensor technology:
- Start-stop-system, interval setting at start and end of line

TECHNICAL DATA

	RE COMPACT	RE COMPACT PLUS
XS light chain	6 x 300 - 400 watt	6 x 300 - 400 watt
Application range	DN 150 - DN 300	
S light chain	6 x 300 - 600 watt	10 x 300 - 600 watt
Application range	DN 150 - DN 600	
MH – Manhole Core	9 x 1000 watt	9 x 1000 watt
Application range	Up to DN 1000	

INNOVATIVE SOLUTIONS FOR SUSTAINABLE WATER NETWORKS

As a global leader in trenchless sewer and pressure pipeline rehabilitation, RELINE not only provides cutting-edge technology for the most challenging requirements, we also offer valuable planning assistance as well as the environmentally friendly execution of your rehabilitation works: A perfect combination that effectively supports the management of resources, time and budget restraints, while simultaneously delivering high-quality solutions which impress through their quality, flexibility and sustainability.
